

## High-Risk Food Not of Animal Origin (HRFNAO) Update

Some foods of non-animal origin are considered high risk food of non-animal origin (HRFNAO) because they pose health risks associated with the country of origin. [FSA HRFNAO Guidance](#) explains the risks and products classed as HRFNAO.

The EU regularly updates its [Regulation No 2019/1793](#), usually around every six months, which lists those HRFNAO products to which specific import controls apply for entry into the EU (and NI). The EU's most recent update has been published and is due to come into effect on 12th August 2025 (see [amending regulation](#)).

This means any products listed in Annex I or Annex II thereof will have to meet [relevant import requirements](#) to enter NI.

The forthcoming changes to the Annex I and II lists can be found below and a consolidated list can be found on our website - [Foodstuffs with import requirements](#).

**Northern Ireland Retail Movement Scheme (NIRMS):** All goods listed in the Regulation 2019/1793 require 'Nor for EU' labelling (unless sold loose). This includes the following goods which will be added to the Annex from the implementation date:

- Mangoes from Egypt
- Bottle gourds from India
- Tomatoes from Turkey

### Changes to Annex I and II of Regulation 2019/1793

Products removed from Annex I – no longer carry import requirements		
Product	Country of origin	CN Code

Products added to Annex I 2019/1793– now require a CHED-D and accompanying commercial documentation				
Product	Country of origin	CN Code	Hazard	Frequency of identity and physical checks (%)
Mango	Egypt	ex 0804 50 00	Pesticide residues	20

				(pre-notification via CHED-D and CHED-PP required)
Bottle gourd ( <i>Lagenaria siceraria</i> ) (Food – fresh and chilled)	India	Ex 0709 93 90 (10)	Pesticide residues	20
Tomatoes (Food – fresh, chilled or frozen vegetables)	Turkey	0702 00 00 0710 80 70	Pesticide residues	20

### Annex I 2019/1793 Products with amended rates of frequency of identity and physical checks (%)

Product	Country of origin	CN Code	Hazard	New Frequency of identity and physical checks (%)
Granadilla and passion fruit (Food)	Colombia	Ex 0810 90 20 (40) Ex 0810 90 20 (50)	Pesticide residues	20
Vine leaves (Food)	Egypt	Ex 2008 99 99 (11) Ex 2008 99 99 (19)	Pesticide residues	50
Yardlong beans (Food – fresh, chilled or frozen vegetables)	Sri Lanka	ex 0708 20 00 (10) ex 0710 22 00 (10)	Pesticide residues	30
Tahini and halva from <i>Sesamum</i> seeds (Food)	Syria	Ex 1704 90 99 (12;92) Ex 1806 20 95 (13;93) Ex 1806 90 50 (10) Ex 1806 90 60 (11;91) Ex 2008 19 19 (41) Ex 2008 19 99 (41)	Salmonella	30
Grapefruits (Food)	Türkiye	0805 40 00	Pesticide residues	10
Durian ( <i>Durio zibethinus</i> ) (Food – fresh or chilled)	Türkiye	0810 60 00	Pesticide residues	20

**Products moved from Annex II to Annex I 2019/1793– now require a CHED-D and accompanying commercial documentation**

Product	Country of origin	CN Code	Hazard	New Frequency of identity and physical checks (%)
Peppers of the genus <i>Piper</i> ; dried or crushed or ground fruit of the genus <i>Capsicum</i> or of the genus <i>Pimenta</i> Ginger, saffron, turmeric (curcuma), thyme, bay leaves, curry and other spices (Food)	Ethiopia	0904  0910	Aflatoxins	30

**Annex II 2019/1793 Products with amended rates of frequency of identity and physical checks (%)**

Product	Country of origin	CN Code	Hazard	New Frequency of identity and physical checks (%)
